PROJECTS
The DailyBulletin (July 2025 - July 2025)   Client | Live
A modern React-based news platform with responsive UI, role-based dashboards, article management, and subscription payments. Faced challenges with Firebase auth, Stripe integration, and API optimization, which helped me learn secure authentication, data visualization (Recharts), and state management (TanStack Query).
- **User-Friendly Interface:** Designed with a sleek, responsive, and interactive interface, ensuring a smooth experience for browsing, reading, and managing articles across all devices.
- **Article Management:** Users can create, update, and delete news articles with real-time updates and optimized state handling.
- **Role-Based Dashboard:** Three roles with unique features - User, Premium Subscriber, and Admin, each accessing different dashboards and permissions.

Technologies: React.js,TanStack Query, Node.js, Express.js, MongoDB, Firebase, Stripe,Framer Motion.

The Book Galaxy (June 2025-June 2025)   Client | Live
A responsive React-based book management app with authentication, protected routes, and interactive dashboards. Faced challenges with Firebase auth, JWT security, and state updates; learned secure routing, UI animations, and API integration.
- **Auth & Security:** Firebase login/register, JWT-protected routes.
- **Book Management And Filtering :** Add, edit, delete, borrow & return books. Browse books by category with user feedback.
- **UI/UX:** Styled with Tailwind CSS, Framer Motion & Toast notifications.

Technologies: React.js, React Router,TanStack Query, Tailwind CSS, Node.js, Express.js, MongoDB, Firebase.

ClayCraft (August 2025-August 2025)   Client | Live
A simple e-commerce platform with authentication and modern UI. Faced challenges with NextAuth integration and file upload handling, which helped me learn App Router auth flows, file management, and UI optimization**.**
- **Authentication:** Secure login with NextAuth.js (App Router).
- **Deployment & DB:** Deployed on Vercel, MongoDB Atlas for database.
- **Modern UI:** TailwindCSS for sleek design.

Technologies: Next.js 14, NextAuth.js, MongoDB Atlas, Tailwind CSS, Vercel.
